REQUEST FOR CORRECTED FILING RECEIPT

Dear Sir/Madam:

The above-identified Applicants again respectfully request that the following correction be made to the data shown in the Filing Receipt dated March 8, 2002. This additional request is being made in response to your Response to Request for Corrected Filing Receipt dated August 14, 2002, a copy of which is attached, in which the requested change was not accepted by the U.S.P.T.O.

In response to the above referenced Response from the U.S.P.T.O. dated August 14, 2002, a copy of the first page of the application reflecting the priority data is enclosed, along with a copy of the Transmittal of Continuation Patent Application form, which includes an amendment to the specification to add priority data. Also attached is the filing receipt for U.S. Patent Application Serial No. 09/409/010, from which the present application is a continuation patent application. Note that this filing receipt includes reference to the 09/250,823 application, which is the application information we wish to have added to the filing receipt of the present application.

Based on the above information, we believe that the requirements of continuity under 35 U.S.C. § 120 have been satisfied such that the "Domestic Priority" data claimed by applicant should correctly read as follows, where the additional language is shown in bold:

**"THIS APPLICATION IS A CON OF 09/409,010, 09/29/1999 ABN
WHICH CLAIMS BENEFIT OF 60/102,216 09/29/1998
AND CLAIMS BENEFIT OF 60/102,860 10/02/1998
AND A CON OF 09/250,823 2/17/99 US 6,266,869 7/31/2001"**

A copy of the filing receipt showing this requested correction (with the changes written by hand) is enclosed.

RESPONSE TO REQUEST FOR CORRECTED FILING RECEIPT

Domestic Continuity and Foreign Priority

In response to your request for a corrected Filing Receipt, the Office is unable to comply with the request because:

- ☐ The priority or continuity claim has not been entered because it was not filed during the required time period. Applicant may wish to consider filing a petition to accept an unintentionally delayed claim for priority. See 37 CFR 1.55 or 1.78.
- ☒ Continuity claimed under 35 USC 120 cannot be added to the Filing Receipt without the applicant supplying the relationship (continuation, divisional, or continuation-in-part) in an Application Data Sheet or amendment to the first page of the specification. 09/250,823
- ☐ A claim for priority cannot be made based on an application filed after the application making the claim.
- ☐ Domestic and foreign priority claims will not be captured in a provisional application. A provisional application is not entitled to a right of priority or to the benefit of an earlier filing date of any other application. See 35 USC 111(b)(7) and 37 CFR 1.53(c)(4).
- ☐ A domestic continuity claim cannot be made to a foreign application and the filing receipt will only list the foreign country, application number, and filing date.
- ☐ Foreign priority will appear on the Filing Receipt in the following order:
Country, Application number, Filing date.

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

PROCESSING ASSEMBLY AND METHOD

The present application is a continuation-in-part of United States Provisional Patent Application Serial Number 60/102,216 for Processing Tray, filed September 29, 1999; United States Provisional Patent Application Serial Number 60/102,860, for Method for Manufacturing a Head Gimbal Assembly, filed October 2, 1998; and United States Patent Application Serial Number 09/250,823 for Manufacturing Apparatus and Method, filed February 17, 1999, the specifications of which are incorporated herein in their entirety by reference.

FIELD OF THE INVENTION

The present invention relates generally to the assembly of component parts into a combined unit and particularly to a novel, stackable processing tray useful for shipping component parts, holding the component parts during the processing, and subsequent shipping of assembled parts for further processing.
